

On Trip Support Overview

Your On-The-Road Support team

- Your trip planner is available to you on the road, 9 am - 7 pm local time
- Feel free to contact them outside of these hours, within reason, and if they are off the clock, their phone will be off.
- Please contact Madeline outside these hours
- Response time while you are on the road: we aim for a 1-hour response time. We will respond faster if we can, but often we cannot.
- Additional support: feel free to ask for help from your hotel concierge, your local guides, drivers, and local Italian infrastructure directly. If their phone number is listed in Axis, you can get in touch with them directly.

Technology for Smooth Communication

- ALL communication is via WhatsApp, including to Italian guides, drivers etc while on the road.
- ALL communication is via text message. We support multiple trips on the road at the same time, so the text history is important. That said, if you call on WhatsApp, we will answer if we can.
- You will see that Axis has a Messaging feature. We do not get notifications when you send a message in Axis so please use WhatsApp for communication, not Axis messaging.
- In order for WhatsApp messages to be delivered in real time, you MUST have international data roaming activated. If you do not, then messages will send and deliver only when you are on wi-fi, which is likely going to be only at your hotel.

On Trip Support, cont.

On-Trip Support includes

- We reconfirm all drivers and guides
- We check for train strikes, taxi strikes, etc. If there is a strike that affects your trip, we will be in touch about the solution (rebooking you, rerouting you, taking a different method of transportation, etc)
- We keep an eye on weather, and if inclement weather affects your trip (such as a boat excursion, hiking excursion etc) we will be in touch to discuss options (cancel the tour for a refund, cancel the tour with no refund etc)
- We can CANCEL anything that has been booked. This means drivers, guides, activities, restaurants. If you reach out to us on the road asking us to cancel something, we will assume you have read the cancellation policies and are aware of any associated penalties
- We can make recommendations (but not bookings) for additional things to see and do if something is cancelled due to weather. First check existing recommendations in your itinerary and in the documents section as there are likely already recommendations.

On-trip support does not include

- We cannot do trip planning while you are on the road. This means we cannot move tours, reschedule things that were missed (even due to delayed flights, train strikes or other things beyond anyone's control), or add new booked activities
- If you would like to rebook, reschedule, or add new activities, while on the road, our hourly fee of \$125 will apply, if we are able to work on it. Note that most of the time, in high season, we simply do not have the capacity to make changes.
